SITE DESCRIPTION/EXECUTIVE SUMMARY

NFA - YUW
2/29/88
no haz.
substance

Site Name and Location

Wolverine Fab. & Mfg. Div. Eagle-Picher
2638 Princess Street
Inkster, Michigan 48141

County: Wayne
Michigan Code Number: 82-02S-10E-30BD
DNR District: Detroit
EPA ID Number: MID005354386

SAS Score/Screen No.:

The site is located south of Michigan Avenue on Princess and Trowbridge roads in Inkster. The plant coats metals with rubber according to Cindy Wentrel, plant chemist of Wolverine Fab. & Mfg.

The plant was inspected in 1981 and an Environmental Protection Agency (EPA) document indicated that, "MDNR investigation of site proved no apparent problem at site." The same document indicates that the site has been inspected and that "it was nonhazardous."

Mr. Printess Parker of Wayne County Health Department, indicated that he has been to the site twice this year. On his last visit (November 6, 1987), he cited them for exceeding the 90-day limit for disposing of drums from the site. The company has since sent in a contingency plan for building a secondary containment at the site.

Recommendations for EPA

This site receives a no further action priority for inspection. Prior inspection declared the site nonhazardous. It is recommended that it be dropped from the CERCLA.
